

Welcome to the 2010 Conclave!

Conclave is officially here! I would like to take this time to thank you for coming to the 2010 SR-6 Conclave at Boxwell Scout Reservation. After all the traveling you have just done to get here, it's time to start enjoying the fun filled weekend that many people have worked hard to plan for you this year.

Throughout this weekend it is my hope that everyone will weld ever so tightly the bonds of Brotherhood for

a lifetime. This weekend will be fun filled for all Arrowman, even if this is your 50th Conclave, there are always exciting things to do. Enjoy the new training, learn to do bead work, listen to the rhythm of the drum beat, and in your Quest for the golden arrow join together as brothers for that

fight. Tonight join together in fellowship at the big Birthday bash in honor of the Boy Scouts of America 100th Anniversary, which promises to be a night to remember. Throughout the weekend you will make memories in which you will never forget so make new friends and enjoy yourself. I look forward to meeting all of you throughout our weekend journey together!!!!

Thanks,
Mitchell Saulsbury
Section Chief

Camp Boxwell Information

Welcome to Camp Boxwell, located in Lebanon, Tennessee. Boxwell is just off the shore of Old Hickory Lake, and the preservation includes 1,182 acres with three main summer camps. Camp Stahlman is the main camp we will be using for

Conclave. It also serves as one of the main Boy Scout camps during the summer. Camp Stahlman is one of the oldest camps at Boxwell with more of the modern features

in it. The camp has more paved trails and showers along with their OA building, the Howard B. Olson Lodge building.

Boxwell has many features to offer, and the Wa-Hi-Nasa lodge is excited to be our host for this weekend. Have a great weekend!

Welcome—From the Service Lodge

Brothers!

Welcome to Boxwell Scout Reservation, site of the 2010 SR-6 Conclave!

For months now, Arrowmen from Wa-Hi-Nasa and other lodges in the section have been hard at work trying to make this the best Conclave that the section has ever seen. I

encourage you to take advantage of the many different aspects of it.

Upon arrival, feel free to enjoy a few of the recreational activities around camp. At the Josh Sain High Adventure Area, the climbing tower

is open as well as shotgun shooting or go to the Cripple Crab and check out a Frisbee disk and take a shot at our Frisbee Golf Course.

Later tonight, join us on the Parade Field of the Stahlman Dining Hall for a huge 100th Anniversary of Scouting party. Lots of activities will be going on around the field, and go indulge in all the fried foods that we will have tonight!

There are a few people I would like to thank for helping with this event. Our Section Leadership has done a spectacular job communicating with

us to make sure things are running smoothly, and their work is greatly appreciated. Next is all the Wa-Hi-Nasa Arrowmen who have helped set up and promote the even.

Finally, I thank you for being in attendance this weekend. Without the great number of participants, there would be no Conclave!

Please feel free to come and talk to me this weekend, and I hope you have an eventful Conclave!

Thanks,
Matt Brown
Service Lodge Chairman

2010 Training—It's not too late!

If you haven't heard by now, training this year has been revamped. Conclave training is now setup like a college. The Section 6 University includes five different programs, and each program has a core set of classes you must take.

The catch is that you need to preregister for classes. If you have not

registered yet, be sure to visit the training booth near registration. There are a limited amount of classes left.

For those who have registered, you should have a schedule of classes. Tomorrow morning, attend each class and at the end of the class have the instructor sign the spot on your schedule.

After you complete all

three classes you will turn in your schedule into the training booth located in your program area. At this point you will receive a patch and earn yourself a Bachelors Degree in an area of the OA.

Be sure to give the training committee your comments about this new setup!
